Please mail the application to:
Office of the State Fire Marshal
Cashiers Unit/AES Program
P.O. Box 997446
Sacramento, CA 95899-7446

Revision 6/30/08

If sent by priority mail (FedEx, UPS, etc...)
Office of the State Fire Marshal
Fire Engineering/AES Program
1131 "S" Street
Sacramento, CA 95814

1. List the Automatic Fire Extinguishing System (instruction, application installation, recharge, operation, service and/or manuals, supplements, and/or addendums to such manuals which are the property or and which are possessed and maintained by the applicant. (Attach an additional sheet if necessary)

2. List all tools, equipment, or supplies and parts owned by the licensee and kept as part of the normal inventory which the licensee intends to use in servicing systems for which this license is being applied. (Please note that no tools, equipment or parts may be borrowed, loaned or acquired by means other than purchase for the sole purpose. Expensive specialized equipment may be rented, but you must give verification that the equipment is available when needed, (e.g. rental contract.) from whom (name, address and phone number) the equipment is rented and explain why it is being rented rather than purchased. (Attach additional sheet if necessary)

3. List your employee service personnel and their experience and qualifications. Submit all confirmations or certificates attesting to competency, training, qualifications and manufacturers authority serviced. The applicant or its employees may submit other documentation which show evidence of training received on systems to be serviced; e.g. seminars, continuing education classes. Self-certification by the employee or employer is not acceptable. (Attach additional sheet if necessary.) (Review qualifications on page 5)

<u>EMPLOYEE NAME</u>	<u>TYPE OF SYSTEM SERVICED AND NUMBER</u>	<u>FOR WHOM & WHEN</u>
----------------------	---	----------------------------

4. List any pertinent contractor's licenses held by the applicant: e.g. C-16, C-36 or C61-D13. (Give the license number and submit copies of original and current renewal documents.)
5. If applicant or an employer is a Fire Protection Engineer, please submit evidence of registration.
6. Submit the original invoices to verify that the purchase or acquisition of required tools, parts and materials for each system license applied for in this application is true and correct. If you do not have original invoices, list the tools and equipment, approximate date of purchase and from whom the purchase was made on a separate document. List where you will be purchasing necessary replacement parts and materials.
7. Give names and address of three persons who will submit letters attesting to character, financial responsibility and integrity: It is the applicant's responsibility to make sure that the letters are sent to the State Fire Marshal. Please be sure that their name appears at the top of the letter.

*Notice: This application will not be accepted without the appropriate non-refundable fee. All items must be completed. An incomplete application could be the basis for denial of a license.

****WHEN FILED WITH AN APPLICATION, THIS CERTIFICATE BECOMES THE PROPERTY OF THE STATE FIRE MARSHAL AND IS KEPT AS A MATTER OF RECORD.**

SUBJECT: AUTOMATIC SYSTEMS LICENSING REQUIREMENTS

In order to be issued an automatic systems license ("A") from the Office of the State Fire Marshal (OSFM), you either have to possess a valid C-16 license issued by the California State Contractor's Licensing Board (CSLB) or be able to provide written documentation that you have the necessary experience, qualifications, equipment, parts, tools, facilities and training.

Given the fact that the OSFM utilizes a self-certification process and no practical or written exam is given, the prospective licensee must provide written proof of service experience. This would be a combination of letters from your previous employers on their letterhead, training certificates from the various systems manufacturers and any college classes taken within any of these disciplines. This service experience must be documented in writing from your previous employer and has to be a minimum of two (2) years and must indicate the type of specific systems that you have worked on, the number of times that you have serviced each type of system and the length of time that you have been servicing each type of system.

For instance: Your previous employer would indicate on their company letterhead; while employed with XYZ company, Mr. Jones has been servicing Ansul R102 systems for the past five years and has serviced approximately 500 systems. The "A" license in this case would only be considered for the "Ansul R102 systems". The "A" license is issued for each system that you have listed on your application and that you have provided the required documentation.

The OSFM will verify each piece of documentation that is submitted as proof of experience. Any misinformation or deception will be grounds for denial. If the OSFM does not believe that you possess the appropriate experience and training, your application will be denied. The preceding required information is related to only the experience qualification requirements and the balance of the license application would still have to be completed in its entirety.

The California Code of Regulations (CCR), Title 19, Chapter 5, Section 905.1 (b) (4) provides that a request for an AES License may be denied if the applicant for a license or his employees does not possess the qualifications to conduct the operations for which the application is made. It is your responsibility to provide all of the required documentation.

If you have any questions, you may call (916) 445-8376.
